PANORAMA INNOVA ICE

panoRama Innova Ice is a perforated pressure sensitive window film designed for outdoor applications at cold. The clear special adhesive provides high temperature resistance and allows to apply the film at extreme cold. panoRama Innova Ice is made of calendared vinyl with clear, semi-permanent adhesive and has a B1 certificate.

Durability

Up to 2 years in mid European conditions. Clean removal within 6 months. Tack may increase over time. Not to be applied on: fresh paint or ink, polycarbonate, certain PVC (no exhaustive list). For critical substrates, please test prior to application.

Printing method

Solvent, eco-solvent, screen printing and latex inks.

Shelf life

1 year, stored at +15 to +20° C (+59 to +68° F) and relative humidity between 45% and 65%.

Warranty

Continental Grafix products are warranted to be free of defects in material and manufacture at the time of shipment and to meet the specifications stated in the technical specification sheets. We will replace or refund the price of any Continental Grafix materials found to not meet our product specifications. In no case shall Continental Grafix be liable for any direct, indirect, or consequential damages, including labor or non-Continental Grafix materials charges. The determination of suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees or warranties of any kind are made to the accuracy of suitability for specific applications.

Advice
