

## SOLVENT SO600-- SOLVENT BACKLIT 200 MATTE

Translucent polyester coated backlit film is designed for top quality graphic arts application in light boxes with high contrast. The semi-matte coating reduces glare, provides high quality image density.

The printouts are characterized by high ink density, vivid colors, and outstanding image resolution with/without light. Compatible to all the popular solvent and UV curable inkjet printers.

Work with all the popular solvent, Latex and UV curable inkjet printers.

It is also easy to install because of very good rigidity and flatness of 8 mil base polyester film.
